

Front Brake Line Kits

Front brake line kits consist of all brake lines under the hood. This includes the master cylinder to the distribution, combination, and/or metering valve. The left and right front lines that run to the front flex hoses are also included. Call for individual component pricing. These line kits are for vehicles with factory brake systems.

| | | | O.M. | S.S. |
|---------|----|---|-------|-------|
| ZKT6701 | 67 | Standard Drum, Early, Right Front Runs Over Column | 51.00 | 75.00 |

PROBLEMS OR QUESTIONS? GIVE US A CALL!

We have a favorite saying here at The Right Stuff Detailing: "No Problems, Just Solutions". If you have a technical question or problem, before the sale or after, simply give us a call. If it's in our catalog, it's in stock and we know about it. We're always just a free call away. We enjoy helping and guiding customers through support, because we have the most friendly and best tech support in our field. Give us a call toll free at 1-800-405-2000.

Rear Axle Brake Lines

Rear axle brake lines include a pair of lines that run across the rear axle housing. These lines connect the wheel cylinders or calipers to the flex hose in the middle of the rear end. These lines work with original housings and axles that use factory brakes. Modifications such as rear disc brakes or narrowed rear ends will likely require special lines. Call for more information.

The right choice...The Right Stuff™ Detailing! When your brake or fuel line needs replacement, or if you just want more detailing on that special interest vehicle, don't settle for "something close". All of our lines are available in regular steel or stainless steel and feature the detailing of factory pieces: Custom pre-bent, flared tubing, color coded hex-head fittings and stainless steel coil armor to protect those critical areas, just as the original equipment.

For the right look and the right fit, make the right choice...

THE RIGHT STUFF™ DETAILING.
