Front Brake Line Kits

Front brake line kits consist of all brake lines under the hood. This includes the master cylinder to the distribution, combination, and/or metering valve. The left and right front lines that run to the front flex hoses are also included. Call for individual component pricing. These line kits are for vehicles with factory brake systems.

SAVE 10% ON A COMPLETE BRAKE LINE SET

Order a complete brake line set and receive a 10% discount. Complete set includes: front line kit, front to rear line, and rear axle brake lines. Discount applies only to brake line set. Mention promotion code BDC10.

Silicon Brake Fluid

Part No. SBF001

17.00 / Qt.

Rear Axle Brake Lines

Rear axle brake lines include a pair of lines that run across the rear axle housing. These lines connect the wheel cylinders or calipers to the flex hose in the middle of the rear end. These lines work with original housings and axles that use factory brakes. Modifications such as rear disc brakes or narrowed rear ends will likely require special lines. Call for more information.

Front Flex Hoses

Front flex hoses provide a flexible connection from the body or frame to the front caliper or wheel cylinders as they move during suspension travel. Choose between O.E. rubber or braided stainless steel. All of our hoses are D.O.T. approved. Hoses are priced individually.

BRAIDED STAINLESS FLEX HOSES

Get the best in appearance and extreme performance with braided stainless hoses from The Right Stuff. Our hoses feature a single crimp/swage fitting on each end with a black nylon jacket for a clean, professional look. Unlike many of the braided stainless hose kits out there, braided stainless hoses from The Right Stuff are bolt-on replacements with no need for unattractive screw-on adapters or fittings. A clear coating on the hose itself allows for easy cleaning. Full D.O.T. approval is assurance that these hoses are safe for use on any public roadway. Banjo bolts and copper washers are included when needed. See individual listings under front and rear flex hoses in this column.

Fuel Pump to Carburetor Lines

Fuel pump to carburetor lines connect the fuel pump to the carburetor. Brass blocks and fittings are included as noted. These lines are intended to work only with factory pump, motor, intake and carburetor combinations. If your system is not 100% stock, call us at (800)405-2000 to discuss available options.

Thermal Choke Control Tubes

Thermal choke lines carry heat from the exhaust system to the choke coil on the carburetor. Some applications route thru the intake manifold on their way to the carburetor.

The right choice...The Right Stuff™ Detailing! When your brake or fuel line needs replacement, or if you just want more detailing on that special interest vehicle, don't settle for "something close". All of our lines are available in regular steel or stainless steel and feature the detailing of factory pieces: Custom pre-bent, flared tubing, color coded hex-head fittings and stainless steel coil armor to protect those critical areas, just as the original equipment.

For the right look and the right fit, make the right choice...

THE RIGHT STUFF DETAILING.
