## Braided Stainless Flex Hoses

Get the best in appearance and extreme performance with braided stainless hoses from The Right Stuff. Our hoses feature a single crimp/swage fitting on each end with a black nylon jacket for a clean, professional look. Unlike many of the braided stainless hose kits out there, braided stainless hoses from The Right Stuff are bolt-on replacements with no need for ugly screw-on adapters or fittings. A clear coating on the hose itself allows for easy cleaning. Full D.O.T. approval is assurance that these hoses are safe for use on any public roadway. Banjo bolts and copper washers are included when needed. See individual listings under front and rear flex hoses in this column.

**The right choice...**The Right Stuff™ Detailing! When your brake or fuel line needs replacement, or if you just want more detailing on that special interest vehicle, don't settle for "something close". All of our lines are available in regular steel or stainless steel and feature the detailing of factory pieces: Custom pre-bent, flared tubing, color coded hex-head fittings and stainless steel coil armor to protect those critical areas, just as the original equipment.

For the right look and the right fit, make the right choice...

**THE RIGHT STUFF™ DETAILING.**
